

Teleradiology Solutions Now Sends Reports to Sub-Saharan Africa

Teleradiology Solutions the No 1 National Teleradiology Provider in USA by KLAS 2011 has signed new contract with Regency Medical Centre (RMC) in Tanzania.

Bangalore, Karnataka (PRWEB) November 24, 2011

Teleradiology Solutions (TRS), a global teleradiology provider ranked the # 1 national teleradiology vendor in the United States by KLAS 2011 has recently signed with Regency Medical Centre (RMC) in Tanzania to work together and serve the Hospital Radiology Services sector of Tanzania and beyond within Sub-Saharan Africa.

Starting with teleradiology services, the partnership between these two organizations will also include in the near future further collaborations in the telediagnostic space. As RMC expands its presence in Sub-Saharan Africa, TRS will continue to grow its reporting in the region.

“We are very excited about the opportunity to use technology and our doctors in India to serve the patients in Tanzania with RMC,” says Dr. Sunita Maheshwari, Chief Dreamer of Teleradiology Solutions. “We are confident that this partnership will see a trickledown effect on improving overall quality of patient care in East Africa.”

Dr. Kanabar, Chairman of RMC states, “There is a huge shortage of Radiologists in East Africa. We believe the partnership with TRS will help patients in East Africa get their diagnostic test results in a timely fashion resulting in improved patient care in this part of the world.”

About Teleradiology Solutions

Teleradiology Solutions (TRS), a pioneer in teleradiology was founded in 2002 by two Yale trained physicians, Dr. Arjun Kalyanpur and Dr. Sunita Maheshwari. It has provided teleradiology services to over 3 million patients in the United States (100+ hospitals) and across 20 countries globally. Teleradiology Solutions is a US Joint Commission accredited ambulatory care health care organization (JCAHO). It is also the only organization outside Singapore to be accredited by the Ministry of Health, Singapore and provides teleradiology services to 11 medical centres in Singapore under the National Healthcare group. Delivering access to expertise in radiologic interpretations across modalities and subspecialties, TRS contributes to improved quality of patient care. With consistent shortest turnaround times in the industry, TRS enhances productivity and helps in reducing overall time to diagnosis and treatment.
