

Teleradiology Solutions ranked amongst top 3 national teleradiology firms in US

Announcement | Corporate

Last Updated at January 20, 2013 21:33 IST

Bangalore based Teleradiology Solutions, India's first and largest Teleradiology healthcare company with a strong global presence, is ranked among the top 3 national teleradiology providers in the United States in an independent survey conducted by Klas Research for the year 2010.

Dr. Sunita Maheshwari, Co-Founder and Chief Dreamer. Teleradiology Solutions said. "It is a real 3. We are proud to have created a high quality, innovative and customer focused healthcare organisation that has worked silently but very hard over the past 8 years to get to this stage."

Teleradiology Solutions has provided teleradiology services (i.e. CT, MRI, X-ray reports) to over 3 million patients globally in the United States (100 hospitals), Singapore (11 hospitals), Canada, Puerto Rico, Croatia, Georgia, Denmark, Netherlands, Germany and the Maldives. The company was showcased to US President Obama as an example of health care innovation on his November 2010 trip to India.

Dr Arjun Kalyanpur, CEO and Chief Pusher, Teleradiology Solutions said, "By being ranked among the top 3, we have yet again proved that our service capability and productivity is uniquely aligned to meet

the expectations of our patients". "I would like to thank all our clients and patients for showing trust and confidence in us, as well as everyone at Teleradiology Solutions for their focus on quality services," he added.

Klas Research is specifically designed to capture customer satisfaction through honest, accurate and impartial performance ratings of healthcare vendor providers in United States. The survey monitors performance through active participation of thousands of healthcare organizations by using a stringent methodology to ensure all data and ratings are unbiased.

About Klas Research

Klas Research, headquartered in Utah, USA provides accurate and impartial ratings of healthcare providers in the United States. It conducts over 1900 healthcare provider interviews per month, working with over 4500 hospitals and over 3000 doctors' offices and clinics. KLAS has ratings on over 250 healthcare technology vendors and over 900 products and services and publishes approximately 40 performance and perception reports per year. About Teleradiology Solutions

Teleradiology Solutions (TRS) was founded in 2002 by Dr. Arjun Kalyanpur and Dr. Sunita Maheshwari. It was initially set up to provide hospitals in the United States with night shift radiology solutions and now provides Teleradiology to hospitals in Singapore and hospitals in 20 countries globally. Teleradiology Solutions (US) is accredited by the US Joint Commission on Accreditation of Healthcare Organizations (JCAHO). It is also the first organization outside Singapore to be accredited by the Ministry of Health, Singapore. The company provides Teleradiology services to hospitals around the globe, which includes interpretation of all non-invasive imaging studies, namely CT, MRI, ultrasound, nuclear medicine studies and digitized X-rays.
